MEASAT APPOINTS NEW VICE PRESIDENT, REGULATORY AND BUSINESS AFFAIRS

Kuala Lumpur, 17 May 2012 – MEASAT Satellite Systems Sdn. Bhd. (“MEASAT”) announced today the appointment of Anil Abraham as Vice President, Regulatory and Business Affairs.

As Vice President, Regulatory and Business Affairs, Anil is responsible for overseeing all regulatory activities of the Company, with a focus on strengthening the Company’s relationships with local and international regulators. In addition, Anil is responsible for working with MEASAT’s Business Development and Legal departments to ensure the interests of the Company are being fully considered in contracts and partnerships entered into.

Prior to joining MEASAT, Anil was a Senior Counsel in the Group Legal Department at Usaha Tegas Sdn. Bhd. Anil was admitted to the rolls of Solicitors of the Supreme Court of England and Wales and practiced corporate law for several years at various international law firms in the City of London.

Anil holds a Bachelor and Master of Laws from King’s College, University of London. Anil also successfully completed his Corporate Legal Practice Course at London’s College of Law.

About MEASAT

MEASAT is a premium supplier of satellite communication services to leading international broadcasters, DTH platforms and telecom operators. With capacity across a fleet of five communications satellites, MEASAT is able to provide satellite services to over 145 countries representing 80% of the world’s population across Asia Pacific, Middle East, Africa, Europe and Australia.

The MEASAT fleet includes the state of art MEASAT-3/3a satellites at 91.5°E which support Asia’s premium DTH and video distribution neighborhood. The MEASAT fleet will be further strengthened with the addition of AFRICASAT-1a at 46°E in Q4 2012 and MEASAT-3b at 91.5°E in Q4 2013.

Leveraging facilities at the MEASAT Teleport and Broadcast Centre, and working with a select group of world-class partners, MEASAT also provides a complete range of broadcast and telecommunications solutions. Services include 3D, high definition and standard definition video playout, video turnaround, co-location, uplinking, broadband and IP termination services.
